

ELCON INFO MEETING

Date: December 18, 2008

To: Member Representatives, Technical Committee, Affiliates & State Industrial Groups

cc: Rick Bidstrup

From: John Anderson (janderson@elcon.org)

Subject: February Workshop and Meetings Canceled

After significant member input – and anticipating early activity on energy and environment issues early in 2009 – we are postponing the ELCON Workshop and meetings scheduled for Tampa on February 2 and 3 and rescheduling them for April 28 in Washington, D.C. (with an ELCON Technical and/or Board meeting on April 29).

This meeting will focus on the many challenges that industrial electricity users will face in the next year. We hope to have speakers from both the Administration and Congress and we anticipate constructive dialog with these policy makers.

I apologize for any inconvenience this may cause you.

So, please, mark your calendars and reserve April 28 for our next ELCON Workshop. Details to follow.
